

NAQSH

Naqsh explores woven geometry, layered pathways, and rhythmic patterns through a bold and contemporary textile expression.

GAIA®

MINDS THAT CREATE , HEARTS THAT TUFT

NAQSH

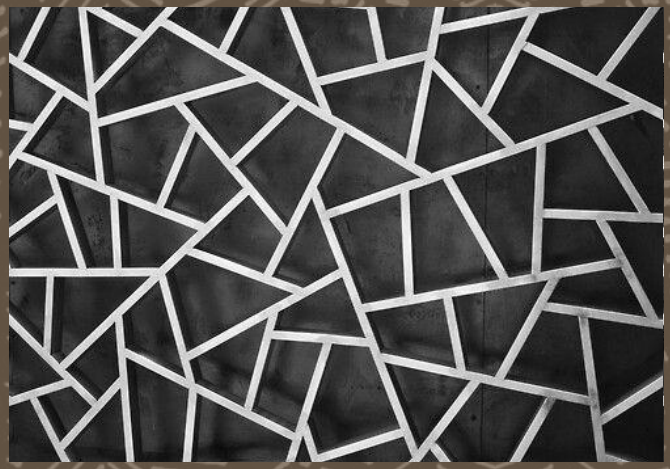

Naqsh is a textile collection inspired by intricate pathways, woven geometries, and traditional patterned structures. The design combines rhythmic linear formations, angular repetitions, and layered textures to create a surface that feels detailed, bold, and visually interconnected. The deep tonal contrasts and woven effect add richness and depth to the composition.
Inspired by maze-like layouts, handcrafted weaves, architectural motifs, and ornamental surface patterns, the collection transforms structured repetition into a contemporary textile language that reflects heritage, craftsmanship, and modern symmetry.
