COLLECTION

OPULENCE

Opulence is a textile collection inspired by softened architectural textures, faded urban surfaces, and layered woven patterns. The design blends blurred geometric forms, tonal contrasts, and textured layering to create a surface that feels rich, atmospheric, and contemporary. The balance between dense and open areas adds depth and movement, while the woven texture gives the composition a refined tactile quality.

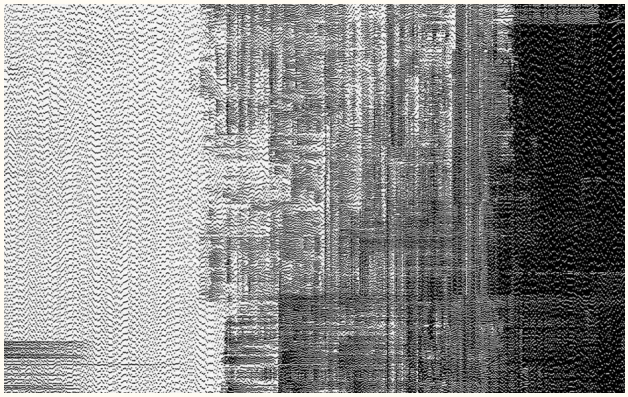

Inspired by weathered walls, abstract city patterns, distressed materials, and textile constructions, the collection transforms irregular structural forms into a modern and sophisticated visual language that reflects quiet luxury and understated richness.
