# SOVEREIGN

Sovereign explores the relationship between structure, texture, and repetition through interconnected grid formations and layered woven surfaces. Inspired by architectural frameworks, textile constructions, and urban geometries, the collection transforms linear arrangements into rhythmic abstract compositions. The overlapping forms create a visual balance between precision and organic irregularity, reflecting the complexity of engineered systems and handwoven textures.

The designs emphasize modular organization, interlocking pathways, and surface depth to create a contemporary and tactile visual language. Through repeated blocks, fragmented lines, and woven-like textures, the collection captures the essence of modern spatial structures while maintaining the warmth and familiarity of textile surfaces. The result is a refined balance between industrial order and handcrafted rhythm.
