ZARA

Zara is a textile collection inspired by pathways, boundaries, and the rhythm of interconnected spaces. The design features structured linear patterns punctuated by contrasting accent lines, creating a sense of movement, direction, and balance. The modular arrangement of the carpet tiles reflects the idea of journeys converging and diverging, while the earthy palette adds warmth and familiarity.

Inspired by traditional courtyards, village pathways, woven floor mats, and mapped routes, the collection transforms simple lines into a contemporary visual language that celebrates connection, continuity, and flow.
