COLLECTION

ZENITH

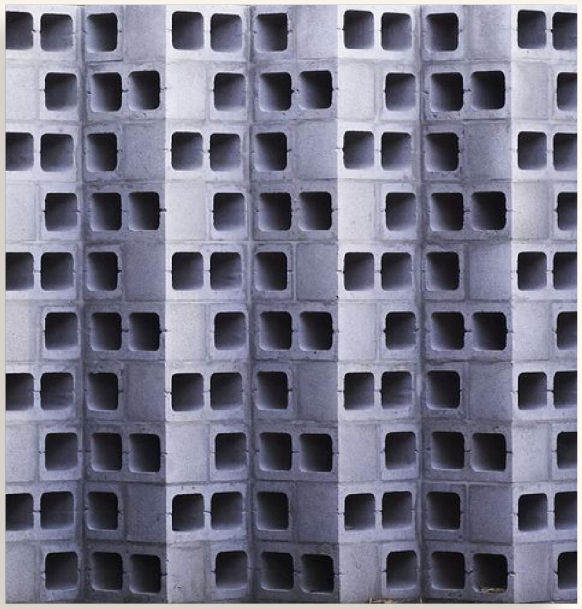

Zenith is a textile collection inspired by abstract urban textures, layered tonal blocks, and weathered surface patterns. The design combines fragmented forms, faded textures, and vertical linear detailing to create a bold yet balanced composition. The contrast between dark and light areas adds depth and movement, giving the surface a strong contemporary and architectural character.

Inspired by distressed walls, city structures, shadow formations, and textured woven surfaces, the collection transforms irregular patterns into a refined visual language that reflects strength, contrast, and modern sophistication.
